Title: PaperRater post

My experience as a copywriter revealed to me the secret insecurities that many people have about their writing. Incredibly intelligent people with excellent communication skills would cringe when they handed me a first draft of a piece they wanted me to shape. With visions of former English teachers in their heads, they fretted about grammar, spelling and word choice, forever concerned that they were making the mistakes that they made when they were in school. Most of the time, they had nothing to worry about, but a clever, anonymous tool can help restore a writer's confidence, no matter his level. Just paste text into a text box at www.PaperRater.com and receive instant feedback about spelling, grammar, word choice and more. It'll even analyze... (only first 800 chars shown)

Transitional Phrases

Transitional Words Score*: 44

*based on quality of transitional phrases used within your paper

Good job! Your usage of transitional phrases is within an acceptable range! Nevertheless, you may still benefit from reading the info below.

One sign of an excellent writer is the use of transitional phrases. Transitional words and phrases (e.g. therefore, consequently, furthermore) contribute to the cohesiveness of a text and allow the sentences to flow smoothly. Without transitional phrases, a text will often seem disorganized and will most likely be difficult to understand. When these special words are used, they provide organization within a text and lead to greater understanding and enjoyment on the part of the reader.

These words and phrases fall under a few grammatical categories:

- Conjunctions: *but, provided, and, although*
- Prepositional phrases: *in addition to, in conclusion*
- Adverbs: *also, however, nevertheless*

Transitional phrases may be used in various places in a text:

- between paragraphs
- between sentences
- between sentence parts
- within sentence parts

For example, you could write:

Form and function are central themes in Biology. However, knowing the structure of something does not necessarily reveal its function.

The word '**however**' contributes to greater unity or cohesion between sentences.

Grade: 82* -> B

*based on college grading scale

NOTE: The grade above is NOT complete! We do not actually use a crystal ball to generate your grade. Instead, this grade takes into account spelling, grammar, word choice, style, vocabulary, and more; but it does NOT examine the *meaning* of your words, how your ideas are structured, or how well your arguments are supported. We should also mention that our automated grader doesn't **always** get things right (then again, neither does your teacher). So, please consider this grade to be one facet of your paper's overall grade.
